WEEKS DENIES PROBE OF WOOD'S AFFAIRS

WASHINGTON, Dec. 26,-Secre fary of War Weeks suggested recently to friends of Lieurquant O. O. Wood, sen of General Leonard Wood, governor general of the Philippines, that they acquaint General Wood concerning his son's speculative financial oberations, it was stated at the war department today. But at no time, it was added, did the war department or incomingtion of Panta nggla apar Lieutenant Wood's personal business

In the absence from Washington of Secretary Weeks this was the only comment obtainable at the war department on Manila disputches concerning Lieutenant Wood's acquisition of a fortune of nearly \$1,000,000 by speculation in securities, Officials said they had no information on Lieutenant Wood's reputed intention to retire

From other sources, however, it was learned that Secretary Weeks was notified not only once but several imes of Lieutenant Wood's operations and that after the latest report reached him he sent word directly to General Wood to the effect that is sas considered undesirable for arm) men to engage in activities that might create discussion or lead to wrong

X-RAY WONDERS

Many important discoveries in modern medical treatment are the result of having the x-ray show the seat of infection. If we eliminate such diseases as the eruptive fevers, smallpox, measles, dightheria, typhoid fever, taberculosis and syphilis, we find about 75 per cent of the other diseases are due to focal infection in the month (teeth and onsils) and the sinuses (both frontal and maxillary).

Dr. Rosenow of the Mayo Clinic has found this to be a fact. In his experiments be has reproduced in animals the diseases from which patients have suffered. By obtaining some of the material at the root of an infected tooth or from a macerated tonsil (after removal) he has injected it into an animal and produced the disease from which the patient was suffering.

High authorities in American medicine have predicted an increase in the ongevity of the race during the coming generation of fully ten years. This s partly because the wonderful very has shown the way. The public will be glad to aid in carrying out the practice of preventive medicine to further such humane results.

The actual cost of having an x-ray examination for your health and proection is small. But whater its not the value with my intection is worth any price. Where the dental climic is fully equipped, the charge is moderate

If you are worrying on account of a break in your health that seems to buffle detection, by all means go to a first-class physician for a diagnosis. He may find that an X-ray test will help locate the cause of your trouble.

Against Southwestern university's probably will give the fight game new strong baserman train, the size of Port Arthur Thursday night five of Port Arthur Thursday night will get their baptism of fire in the school gan floor,

In preparation for the beginning of the T. I. A. A. basketball titular race, the Southwestern crew is playing a series of holiday stands to the stronger clubs of this section, and a tilt was secured through the management of the Gulfie squad. Early indications point to a tough

battle for Thursday night, as the local cien is anxious to be returned the on the right root. No information is available at this

time as to the hneup of either teams but with a score of strong players from which to pick, it is thought the Gulf club can to-s a speedy aggregation into the field.

SHOCKER MUCH IN DEMAND BY CLUBS IN MAJOR LEAGUES

Five clubs in the American league are said to be auxious to make a trade for Pitcher Urban Shocker of the St. Louis Browns. According to report, only Chicago and Detroit have feiled to make some sort of a proposition to the Browns. However, it's a cinch that neither Cobb Chance would object to taking over the St. Louis star.

Shocker has never been successful against the Detreit club. The Tygers have always taken all kinds of liberties with his delivcis Perhaps that is one reason why Manager Cobb hasn't come to the front with an offer for

Shocker is a great pitcher, perhaps the brainnest twirler in the American league: There is thought back of every ball be pitches.
